

Alphabet Dominos

The best way to teach individual sounds is through interactive activities such as songs and games. Youtube is full of songs and games that young learners love to join in with. The BBC Alphablocks series is excellent - <https://www.bbc.co.uk/cbeebies/shows/alphablocks>. Below you will find a set of individual sound dominos and ideas of how to use them in games that children enjoy.

- Jigsaw - this is a great pairing game where players need to match the letter with the picture with the same beginning letter and sound.
- Alphabet scavenger hunt - Place at least six picture cards (eg: s,a,t,p,i,n) around your home, garden or local park and then ask your child; Can you find the picture that begins with letter S sound s? Combine this with a timer, How fast can you find it? or with a movement eg: Can you hop to find picture that begins with letter S sound s? When they return with the correct card ask them to name three things with the same beginning sound eg: smile, snake, sausage or repeat the sound and clap five times.
- Letter pairs - Lay out 6 pairs of cards face down. Then take turns turning the cards over trying to find a pair. Every time a card is turned over your child should say the name and sound of that letter card or the beginning sound of the picture card. Whenever a pair is found those cards are won by that player
- Letter Charades - Place the letter cards in a bag, box or hat. players take turns taking a letter from the bag. they then have to act out something beginning with that sound eg: Ss the person could act out a snake, or sunshine or a smile.
